

For Ages 3 – 100+

U.S.A. Placemat

→ **BE A GEO-BEE**
At Home Activities – on your OWN

Learn the 50 states

1. Study the states
2. When ready, take the “state” test on the back side
3. Write each state’s 2-letter abbreviation in its respective location
4. Have a parent or sibling grade your work
5. Wipe off and repeat until 100%

Memorize state capitals

1. Study state capitals
2. Take the “state capital” test on back
3. Draw a line from capital name to the state
4. Have a parent or sibling grade your work
5. Wipe off and repeat until 100%!

FAMILY FUN AT MEALTIME

- Test family members on state capitals (does your Dad know the capital of Alabama?)
- Ask a family member where a state is located using the N-S-E-W chart (e.g. Q. Where is Wyoming with respect to NY? A. West).
- Quiz each other on landmarks and waterways (Q. What is the name of the tallest building in the U.S.? What state is it located? What ocean do you have to fly over to fly from NY to France? What is the tallest mountain and where is it located?)
