

Our Planet is EARTH

For Ages 5 – 10+

Solar System Placemat

➡ Learn about Astronomy

Learn the planets of our Solar System

- ❖ Study the 8 planets on the front side
- ❖ Use washable marker and write 1 next to planet closest to sun, 2, next to planet the next closest and so on using distance from the sun chart on front side
- ❖ What is our galaxy called?

Back side planet facts and activities

- ❖ Color the planets and write the name of each on back side
- ❖ Read facts about each planet and learn about black holes, nebulas, the sun, moon, asteroids and comets

Family Trivia Night - Quiz your Family at Mealtime

- ❖ Use back side information to quiz family at the dinner table (e.g. Q. Which planet is named for the Roman god at sea? A. Neptune; Q. Which planet is the largest planet in the solar system? A. Jupiter)
